

Tournament Organiser Pack (Viewpoint)

Introduction

This pack includes all of the essential items and references for running a Viewpoint tournament. The key duties in organising and running a tournament are to:

- a. Select the tournament type and record the tournament details – Read the information on types of tournaments on the following pages and select your preferred format. Alternatively, you may use any other tournament format that suits. You should consider the number of players in the tournament, the number of rounds (most rounds take around 20 minutes to play) and the number of players per game (Knock Out tournaments are best suited to 3, 4 or 5 players per game and Round Robin tournaments are best suited to 2, 4 or 6 players per game).
- b. Register players – Print out the Player Registration Sheet (refer page 3) and get every player to enter their details. These details will be used by 93 Made Games to assign Player IDs.
- c. Record the results of each game including the View-points scored by each player.
- d. Collate the tournament details and report the results back to 93 Made Games (info@93madegames.com.au), who will then update the Viewpoint tournament leaderboard.

Other things to consider when organising a tournament include:

- Advertising your tournament. 93 Made Games can help to advertise your tournament by posting the details on our website and sending the information to our mailing list members. You might also want to get involved in the Viewpoint Accolades program, which provides rewards to tournament players, such as Viewpoint merchandise and free game gear.

Name of Organiser(s)		Location	
Type <small>(please tick one)</small>	Knock Out <input type="checkbox"/>	Round Robin <input type="checkbox"/>	Other <input type="checkbox"/> <small>(please specify)</small>
Number of Players		Number of Rounds	
		Players Per Game	

Special Notes

1. A tournament must have a minimum of 4 players to be sanctioned by 93 Made Games.
2. Each round should only take 30 minutes to play but the tournament organiser can specify a maximum round time between 30 and 45 minutes depending on the number of games in a round. If a winner has not been determined within a specific game when time is called then the current player finishes their turn and all players take one more turn each (missing a turn is counted as a player taking their turn in this instance). The winner is the player with the highest number of View-points after the last player takes their turn. If there are 2 or more people with the highest number of View-points at this stage, the game continues until only player has the highest number of Viewpoints (checked at the end of each players' turn). Unless otherwise stipulated by the tournament organiser, there is no time limit in the final round or in play-offs.
3. It is the responsibility of the tournament organiser to ensure that the tournament is run in a fair, reasonable and honest manner.
4. For a tournament to be officially sanctioned, the results of the tournament must be sent to 93 Made Games (info@93madegames.com.au).
5. Player IDs are assigned by 93 Made Games as follows: CITY REGISTERED - YEAR REGISTERED - SEQUENTIAL NUMBER (e.g. Sydney - 2008 - 00093 = SYD0800093).

Knock Out Tournaments

- Players will play through a series of Knock Out rounds with the winners of each round advancing to the next and the losers being eliminated from the tournament. Depending on the number of players in the tournament and how the number divides into the Knock Out draw, more than one player might advance from each game to the next round.
- The overall winner is the player who wins the last Knock Out round.
- The organiser specifies the number of players per game and the number of rounds for the tournament. 3, 4 or 5 players per game are best for Knock Out tournaments. Fewer rounds will be required for tournaments where there are more players per game. If there is an odd number of players for the tournament, the ungrouped players (that is, those not able to make up the required number of players for a game) will play in a first round game with fewer players than specified for the tournament. If there is only one ungrouped player, they will automatically advance to the next round.
- Randomly allocate numbers to each player and record them on the Player Registration Sheet (refer page 3) and use those numbers in grouping players in the first round. Use the Knock Out draws (refer pages 5-7) for a basis of how to group players for 3, 4 and 5 player games.
- Record the winners of each game at the end of each round in the appropriate Knock Out results table (refer pages 5-7). Tick the check box for each player that is to advance to the next round. The players are then grouped in order down the Knock Out results table. For example, the winner of the first round game between players 1, 2 and 3 will play the winner from the game between players 4, 5 and 6 and the winner from the game between players 7, 8 and 9, in the next round.
- 93 Made Games will assign Tournament Ranking Points. Ranking Points are assigned to each player depending on what position they finished in the tournament. These points are used to calculate the world rankings and to determine the top Viewpoint player for each year. For Knock Out tournaments, Ranking Points are allocated as specified on the 93 Made Games website.

Round Robin Tournaments

- Players will play through a series of tournament rounds against 1 or more opponents per round.
- The overall winner is the player who has won the most rounds and has accumulated the most View-points. If there is a tie for first place after all rounds have been played, the tying players will play-off in a sudden death round. The winner of the sudden death round is the winner of the tournament.
- The organiser specifies the number of players per game and the number of rounds for the tournament. 2, 4 or 6 players per game are best for Round Robin tournaments. Fewer rounds will be required for tournaments where there are more players per game. If there is an odd number of players for the tournament, the ungrouped players can either receive a **bye** (counts as losing the round but receives 50 View-points) or some games can be played with 1 less player than normal. This is up to the discretion of the organiser.
- Randomly allocate numbers to each player and record them on the Player Registration Sheet (refer page 3) and use those numbers in grouping players for each round. Use the Round Robin draws (refer pages 8-9) for a basis of how to group players for 2, 4 and 6 player games.
- Record the winners of each game and the number of View-points each player has at the end of each round in the Round Robin Results table (refer page 4).
- 93 Made Games will assign Tournament Ranking Points. Ranking Points are assigned to each player depending on what position they finished in the tournament. These points are used to calculate the world rankings and to determine the top Viewpoint player for each year. For Knock Out tournaments, Ranking Points are allocated as specified on the 93 Made Games website.
